Dear Parents/Guardians:

September, 2014

I would like to welcome all parents to a new school year. My name is Linda Schuler and I am the Parent Coordinator for P. S. 11. As a part of the Children First Initiative, my first priority is to create a welcoming environment in our school for parents and their families. I will be working closely with the Principal, staff, PTA, and the school community. Parents are the first teachers of our children. We would like to help all parents be more informed and involved in their children's education. I am here to assist parents with their questions, comments, and concerns. I will be contacting parents throughout the year, with invitations to come and share ideas, to be part of our workshops and activities, and to be informed about the educational process. It is very well documented that children perform better in school, when parents are actively involved in their education they achieve the following:

**Higher Test Scores**  
**Higher Self Esteem**  
**Improved Behavior**

PS. 11 is a multicultural diverse school that strives for excellence, with an active PTA, a dedicated principal, teachers, guidance counselors, and staff. As your Parent Coordinator, I am here to help you feel welcomed and a part of your children's school. Please feel free to meet with me at any time to get the answers to any questions you may have. I wish all parents and their children a very happy and successful year. I am in the Main Building on the 1st Floor, Room. G17C. My phone number is 718-779-2090 ext. 5175.

Thank You ,

Linda Schuler,  
Parent Coordinator.
